5.2 参数修改

在测量显示菜单中的任一显示项下，长按可进入“PASS”界面，提示输入密码，默认密码 0001，再按，若密码输入错误，则返回“0000”可重新输入；若密码输入正确，则可进行参数设置。设置完成后长按进入“SAVE”界面，按键，切换为“YES”后按则保存并退出，在“no”下按则不保存直接退出。

When in any display item, press for a long time to enter the "PASS" interface. There is a prompt for password, and the default password is 0001, and then press again. If the password is incorrectly entered, return to "0000" to re-enter; If the password is entered correctly, the parameters can be set. Press for a long time to enter the "SAVE" interface, press to switch to "YES", then press to SAVE and exit, and press when switching to "NO" to exit directly, with no need to “SAVE”.
